Journal of Graph Theory

Contents of Volume 44, 2003

Number 1, September 2003

Partitioning a Graph Into Two Isomorphic Pieces
A. Bonato and R. Nowakowski 1
Published online 28 July 2003

Graph Homomorphisms Through Random Walks
A. Daneshgar and H. Hajiabolhassan 15
Published online 29 July 2003

An Application of the Regularity Lemma in Generalized Ramsey Theory
G. N. Sárközy and S. M. Selkow 39
Published online 29 July 2003

Det-Extremal Cubic Bipartite Graphs
M. Funk, B. Jackson, D. Labbate, and J. Sheehan 50
Published online 31 July 2003

On Covering Bridged Plane Triangulations with Balls
V. Chepoi and Y. Vaxès 65
Published online 31 July 2003

Information for Contributors I

Number 2, October 2003

Packing Paths in Digraphs
R. C. Brewster, P. Hell, S. H. Pantel, R. Rizzi, and A. Yeo 81
Published online 2 September 2003

Circular Chromatic Number of Subgraphs
H. Hajiabolhassan and X. Zhu 95
Published online 2 September 2003

Circular Chromatic Number and Mycielski Construction
H. Hajiabolhassan and X. Zhu 106
Published online 3 September 2003

Minimally (k, k)-Edge-Connected Graphs
K. Hennayake, H.-J. Lai, D. Li, and J. Mao 116
Published online 2 September 2003

Graphs Embedded in the Plane with a Bounded Number of Accumulation Points
C. P. Bonnington and R. B. Richter **132**
Published online 3 September 2003

Upper Total Domination in Claw-Free Graphs
O. Favaron and M. A. Henning **148**
Published online 3 September 2003

Information for Contributors **I**

Number 3, November 2003

Short Proofs of Classical Theorems
J. A. Bondy **159**
Published online 29 September 2003

A List Analogue of Equitable Coloring
A. V. Kostochka, M. J. Pelsmajer, and D. B. West **166**
Published online 29 September 2003

Self-Clique Graphs and Matrix Permutations
A. Bondy, G. Durán, M. C. Lin, and J. L. Szwarcfiter **178**
Published online 30 September 2003

Steiner Type Problems for Digraphs that are Locally Semicomplete or Extended Semicomplete
J. Bang-Jensen, G. Gutin, and A. Yeo **193**
Published online 30 September 2003

Hamilton Decompositions of Complete Multipartite Graphs with Any 2-Factor Leave
C. D. Leach and C. A. Rodger **208**
Published online 30 September 2003

On a Conjecture of Brualdi and Shen on Block Transitive Tournaments
P. Acosta, A. Bassa, A. Chaikin, A. Riehl, A. Tingstad, L. Zhao, and D. J. Kleitman **215**
Published online 1 October 2003

Critical Groups for Complete Multipartite Graphs and Cartesian Products of Complete Graphs
B. Jacobson, A. Niedermaier, and V. Reiner **231**
Published online 1 October 2003

Information for Contributors **I**

Number 4, December 2003

All Cycle-Complete Graph Ramsey Numbers $r(C_m,K_6)$
I. Schiermeyer **251**
Published online 3 November 2003

Light Subgraphs in Planar Graphs of Minimum Degree 4 and Edge-Degree 9
B. Mohar, R. Škrekovski, and H.-J. Voss **261**
Published online 3 November 2003

Functions and Line Digraphs
A. E. Sahili **296**
Published online 4 November 2003

4-Regular Graphs Without Cut-Vertices Having the Same Path Layer Matrix
Y. Yuansheng, L. Xiaohui, C. Zhiqiang, and L. Weiming **304**
Published online 5 November 2003

Author Index **313**

Volume Contents **I**
